

This is not mandatory reading, but here's the code we'll run in the "Role-based Access Control" videos. It may come in handy when you're doing the associated hands-on assignment.

```
USE ROLE accountadmin;
```

```
---> create a role
```

```
CREATE ROLE tasty_de;
```

```
---> see what privileges this new role has
```

```
SHOW GRANTS TO ROLE tasty_de;
```

```
---> see what privileges an auto-generated role has
```

```
SHOW GRANTS TO ROLE accountadmin;
```

```
---> grant a role to a specific user
```

```
GRANT ROLE tasty_de TO USER [username];
```

```
---> use a role
```

```
USE ROLE tasty_de;
```

```
---> try creating a warehouse with this new role
```

```
CREATE WAREHOUSE tasty_de_test;
```

```
USE ROLE accountadmin;
```

```
---> grant the create warehouse privilege to the tasty_de role
```

```
GRANT CREATE WAREHOUSE ON ACCOUNT TO ROLE tasty_de;
```

```
---> show all of the privileges the tasty_de role has
```

```
SHOW GRANTS TO ROLE tasty_de;
```

```
USE ROLE tasty_de;
```

```
---> test to see whether tasty_de can create a warehouse
```

```
CREATE WAREHOUSE tasty_de_test;
```

```
---> learn more about the privileges each of the following auto-generated roles has
```

```
SHOW GRANTS TO ROLE securityadmin;
```

```
SHOW GRANTS TO ROLE useradmin;
```

```
SHOW GRANTS TO ROLE sysadmin;
```

```
SHOW GRANTS TO ROLE public;
```
